

## Ethics and Regulations: International Code of Ethics for Professional Accountants (including International Independence Standards)

### SEMINAR HIGHLIGHTS:

This seminar aims to enhance participants' understanding and awareness of the IESBA revamped Code of Ethics for Professional Accountants.

It is a completely rewritten Code that is easier to navigate, use and enforce.

While the fundamental principles of ethics have not changed, revisions have been made to the unifying conceptual framework—the approach used by all professional accountants to identify, evaluate and address threats to compliance with the fundamental principles and, where applicable, independence. New Code highlights include:

- ✧ Revised “safeguards” provisions better aligned to threats to compliance with the fundamental principles;
- ✧ Stronger independence provisions regarding long association of personnel with audit clients;
- ✧ New and revised sections dedicated to professional accountants in business (PAIBs) relating to:
  - preparing and presenting information; and
  - pressure to breach the fundamental principles.
- ✧ Clear guidance for accountants in public practice that relevant PAIB provisions are applicable to them;
- ✧ New guidance to emphasize the importance of understanding facts and circumstances when exercising professional judgment; and
- ✧ New guidance to explain how compliance with the fundamental principles supports the exercise of professional skepticism in an audit or other assurance engagements.
