Financial Controllership Programme

Risk Management and Corporate Governance Module

This module explores the practical issues of corporate governance and risk management in a company. Through content and case study, participants will be able to gain the understanding and experience to recognize the problems and difficulties of applying the best practice, and judgments and decisions that company leaders and managers will have to make while facing a variety of situations and contexts.

Participants will also gain the advanced skills and confidence to meet the increasing corporate and risk management demands, thus increasing their overall value to the business.

Course Director: Mr. Dennis Fullgrabe Formerly Chief Internal Auditor of Hospital Authority

As Chief Internal Auditor of Hospital Authority for 18 years from 1995 until 2013, Dennis has extensive experience in governance, risk management and control and led the introduction of enterprise risk management in the Hospital Authority. Dennis is currently working at the University of Hong Kong assisting in setting up governance structures and enterprise risk management arrangements in a new acute hospital in Hong Kong.
