### **Dr. Victor Yeung (楊協和醫生)**

Dr. Yeung obtained his bachelor degree in Biophysics at Johns Hopkins University (USA), and then pursued his medical degree at the University of Hong Kong (HKU). After graduation, he continued his career as a urological trainee, and eventually received his fellowship in 2013. He was then promoted to associate consultant, and appointed as honorary clinical assistant professor of the Chinese University of Hong Kong (CUHK). In 2017, he started his own private practice in Causeway Bay.

Apart from clinical work, Dr. Yeung is an active researcher with many articles published in various international journals. He has also presented in many conferences, and received the best poster presentation award at the 14<sup>th</sup> Urological Association of Asia Congress in 2016. In addition, he has designed a wall-attached urinal that can measure men's urinary flow rate, and it is now patented in both Hong Kong and China. This new design minimizes the patient's embarrassment while urinating at the traditional funnel while performing the flow rate exam. In 2019, it has received the Gold Award in the FITMI Asian International Innovation Technology Exhibition.

Dr. Yeung plays an active role in many medical societies and alumni associations. He is currently the president emeritus of Johns Hopkins University Hong Kong Alumni Association (JHUKHAA). Also, he is the honorary treasurer of Hong Kong Medical Association (HKMA), chairperson of the Ethics Committee and council member of the Medical Council of Hong Kong (MCHK), Federation of Medical Societies of Hong Kong (FMSHK), Hong Kong Society of Practising Urologists (HKSPU), Hong Kong University Medical Alumni Association (HKUMAA) and the Hong Kong Society of Endourology (HKSE).
