

Accounting and Financial Reporting

Live webinar: HKAS 36 Impairment of Assets

COURSE HIGHLIGHTS:

Impairment assessment is one of the key elements of the financial reporting process as well as common review area of regulators. It is likely that companies are facing more uncertainties in the current economic environment, with some sectors being more affected than others. Many practitioners often identify impairment as a key audit matter for audits of listed entities.

This webinar will cover the following aspects of HKAS 36:

- common pitfalls of HKAS 36 (e.g. identification of cash generating units (CGUs), deriving discount rates and related cash flow projections, comparable recoverable amount and carrying amount, identification of impairment indicators, related disclosures, etc);
- how to deal with corporate assets, especially leased offices and other material right-of-use (RoU) assets that are corporate assets;
- considerations for impairment assessment of goodwill, particularly the allocation of goodwill to appropriate testing level and the frequency of assessment; and
- practical tips in preparing / reviewing valuation assumptions and models.

This live webinar encourages interactive-learning. A Q&A session will be included during the webinar providing opportunities for participants to explore the topics in more detail and ask questions.
