

Accounting and Financial Reporting

Live webinar: Climate-related implications on financial reporting

COURSE HIGHLIGHTS:

Climate change is a topic in which investors and other HKFRS stakeholders are increasingly interested because of its potential effect on companies' business models, cash flows, financial position and financial performance. Most industries have been, or are likely to be, affected by climate change and have made efforts to manage its impact. The effect of climate-related matters on financial statements is an area which the IASB and regulators from around the world have recently focused on and are likely to take an interest in going forward.

This webinar will explain how, although HKFRS do not mention "climate change" explicitly, the Standards require companies to consider the effects of climate-related matters on HKFRS financial statements. This will be done through the use of illustrative examples and will include, but not be limited to, the following areas:

- HKAS 1 *Presentation of Financial Statements*
- HKAS 2 *Inventories*
- HKAS 12 *Income Taxes*
- HKAS 16 *Property, Plant and Equipment*
- HKAS 36 *Impairment of Assets*
- HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets*
- HKAS 38 *Intangible Assets*
- HKFRS 7 *Financial Instruments: Disclosures*
- HKFRS 9 *Financial Instruments*
- HKFRS 13 *Fair Value Measurement*

This live webinar encourages interactive-learning. A Q&A session will be included during the webinar providing opportunities for participants to explore the topics in more detail and ask questions.
