

Accounting and Financial Reporting

Live webinar: Amendments to HKAS 1 *Presentation of Financial Statements*

COURSE HIGHLIGHTS:

Classification of liabilities as current or non-current has been one of the commonly seen accounting issues for many years. The outbreak of COVID-19, which has severely affected the financial position of entities in some industries, has further brought the presentation issue to the forefront. In responding to a request for clarification on how the classification principle in paragraph 69 of IAS 1 interacts with the requirements of paragraph 73 when an entity expects to refinance or roll over an obligation under an existing loan facility, the International Accounting Standards Board (IASB) issued amendments to IAS 1 in January 2020 to provide guidance to determine if a right to defer settlement existed at the end of reporting period. In November 2021, the IASB further issued an Exposure Draft (ED) *Non-current Liabilities with Covenants* to propose further clarification on how to classify liabilities that are subject to covenants to be complied with at a date subsequent to the reporting period.

Besides, as part of its initiative to enhance communication in financial reporting, the IASB issued amendments to IAS 1 *Disclosure of Accounting Policies* to provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures.

This webinar will provide an overview of these recent / upcoming amendments to IAS / HKAS 1, which may affect the presentation of liabilities in the statement of financial position and the disclosure of accounting policies in the financial statements, including:

- Considerations for classification of liabilities as current or non-current
 - Right to defer settlement
 - Existence at the end of the reporting period
 - Management expectations
 - Meaning of the term “settlement”
- Non-current Liabilities with Covenants (the ED)
- Disclosure of Accounting Policies
 - Replacement of the term “significant” with “material”
 - Application of the material definition
 - Disclosure of standardized information
 - Removal of reference to “measurement basis”

In addition, the webinar will share with participants some common issues on presentation and disclosures of financial statements.
