

Technology & Innovation Series

## iAM Smart and Corp ID: Two key digital infrastructures for driving smart city development

(Programme Code: EWEB24103001)

The Institute proudly launches the “Technology & Innovation Series”. This new series aims to help our members embrace technology and navigate the evolving technology landscape effectively. This initiative is designed to enhance members’ capacity and efficiency in both the management and operational aspects of digital transformation.

Kicking off this series is a seminar on *iAM Smart and Corp ID: Two key digital infrastructures for driving smart city development*.

“iAM Smart” is a one-stop personalized digital services platform which provides Hong Kong residents with a single digital identity. This streamlines online identity verification, facilitates seamless and reliable interactions with government and commercial online services, and enables legally binding digital signatures – all while ensuring data privacy and security.

The Corp ID Platform facilitates Hong Kong corporations to undergo corporate identity authentication and signature verification when using the government and commercial online services, simplifying the complicated procedures and accelerating their digital transformation.

Join us at the seminar to explore how these initiatives enhance the operational efficiency of CPAs, leveraging on digital identities of individuals and corporations as a reliable and trusted source of information for conducting customer identity authentication and customer due diligence, and more. Digital Policy Office representatives will also be available to assist participants with registration at a designated booth.

Stay tuned for more events to come!

### Speakers

#### Mr. Donald Mak

Deputy Commissioner (Data Governance)  
Digital Policy Office  
The Government of the Hong Kong Special Administrative Region

#### Mr. Anthony Chiu

Assistant Commissioner (Data Platforms)  
Digital Policy Office  
The Government of the Hong Kong Special Administrative Region

### Date & Time

**Wednesday, 30 October 2024**

1:00 – 2:00 p.m.

### Venue

**Hong Kong Institute of CPAs**

27th Floor, Wu Chung House, 213 Queen's Road East, Wan Chai, Hong Kong

### Language

Cantonese

### Fee

Complimentary

### Competency\*

Industry knowledge

### Sub-competency\*

Business and product knowledge

### Rating\*

Foundation to intermediate level

**Enrolment Deadline** 29 October 2024 (online)

**Registration** Enrol online or complete the enrolment form and return it with full payment by the enrolment deadline. Enrolment will be accepted on a first-come-first-served basis.

## About the Speakers

**Mr. Donald Mak**  
**Deputy Commissioner (Data Governance)**  
**Digital Policy Office**  
**The Government of the Hong Kong Special Administrative Region**

As the Deputy Commissioner (Data Governance), Mr. Mak has been actively involved in promoting Government's agenda for innovation, technology adoption and public services improvement. He also played a key role in the implementation of a number of digital government infrastructures (including the government cloud infrastructure, big data analytics platform, shared blockchain platform, consented data exchange gateway) and the formulation and implementation of open data policy.

Mr. Mak joined the Government in 1989. Since then he has assumed various important duties including formulation and implementation of facilitation strategy and initiatives for ICT industry development, data centre development, digital inclusion, ICT co-operation with the Mainland and overseas economies as well as the implementation and management of various government ICT systems and services.

**Mr. Anthony Chiu**  
**Assistant Commissioner (Data Platforms)**  
**Digital Policy Office**  
**The Government of the Hong Kong Special Administrative Region**

Mr. Chiu has been serving in the HKSAR Government mainly on central information technology (IT) infrastructures and services for government departments. He has led various government-wide IT initiatives, including standardization of government data centres, central secure messaging within the Government, government cloud platform, big data analytics platform, blockchain platform, open data and data sharing. He also headed a team to provide data science services for government departments for effective adoption of AI. Upon the establishment of the Digital Policy Office, his major work focus is to provide various data platforms to support data-centric digital government services including the implementation of the new Corp ID Platform to facilitate digital economy development.

Mr. Chiu was a winner of the Hong Kong Computer Society Outstanding ICT Achiever Awards (Project Management Category) in 2012.
