

HKICPA E-Learning Series: Towards an Effective and Efficient Audit

COURSE HIGHLIGHTS:

This series aims to discuss relevant requirements and provide practical guidance for planning and executing audit procedures in the following key areas:

- Audit sampling and journal entry testing
- External confirmations and audit documentation
- Auditing opening balances and related parties

Recent inspections by the Accounting and Financial Reporting Council (AFRC) have identified deficiencies in auditors' procedures related to these areas. To enhance audit quality, auditors must thoroughly understand the relevant requirements to design and perform appropriate audit procedures, ensuring an effective and efficient audit.

Drawing on findings from recent AFRC inspections, speakers will discuss relevant requirements in the Hong Kong Standards on Auditing (HKSA) with illustrative examples to highlight common pitfalls and offer tips for avoiding them in practice.

Date	Speakers	Topic (Programme Code) / Programme Outline
23 October 2024	William Gee Ivan Chow	Audit Sampling and Journal Entry Testing (ESEMETLS241023L01) <ul style="list-style-type: none"> • Requirements for audit sampling and testing journal entries • How to identify and establish selection criteria for samples and journal entries, testing techniques and document the results • Tips and common pitfalls
