## Live webinar: Enhancing Insurance Enterprise Risk Management Framework under HKRBC Pillar

---

The Hong Kong Risk-based Capital regime (HKRBC) came into effect on 1 July 2024, marking a significant milestone for the insurance sector. It adopts a three-pillar regulatory framework. The three pillars are:

- Pillar 1 – quantitative capital requirements;
- Pillar 2 – qualitative requirements;
- Pillar 3 – regulatory reporting and public disclosure requirements.

Following our April 2025 webinar on key considerations for insurers' first annual submission to the Insurance Authority under Pillar 3, we are pleased to invite you to our next live webinar, which will focus on the Enterprise Risk Management (ERM) framework under Pillar 2 of the HKRBC regime.

Pillar 2 is particularly relevant to accounting professionals working on ERM, as risk management and internal controls are gaining increased attention from both management and regulators. At the same time, the Accounting and Finance function plays a vital role in supporting the implementation and effective operation of the ERM Framework. By participating in this webinar, accounting professionals will enhance their expertise and foster cross-functional collaboration, contributing to the smooth and effective functioning of the ERM framework.

In this webinar, our speakers will:

- Provide an overview of the **ERM framework** and **Own Risk and Solvency Assessment (ORSA) requirements** under Pillar 2, including key considerations for an effective governance structure in risk management;
- Share good practice on specific risk topics, including **risk appetite framework, target capital, stress and scenario testing (SST)** and **recovery plan**;
- Discuss **ERM related requirements under the Group-wide supervision regime** applicable to insurance groups operating in Hong Kong;
- Explore **emerging risk topics** relevant to insurers, such as **alternative assets, operational resilience**, and **climate risk** by highlighting their unique risk considerations;
- Provide a **high-level update on recent developments** in the HKRBC regime; and
- Answer your questions in an interactive Questions and Answers session.

Join us for this engaging session. The following are the details of the webinar:
