

Technology & Innovation Series

eMPF – A one-stop electronic platform for easier MPF management

(Programme Code: OTHR25121102)

This year, the Institute continues to host the “Technology & Innovation Series”. This series aims to help our members embrace technology and navigate the evolving technology landscape effectively. This initiative is designed to enhance members’ capacity and efficiency in both the management and operational aspects of digital transformation.

The eMPF Platform (“the eMPF”) marks the most significant reform of the MPF System since its inception. As a one-stop centralized electronic platform, the eMPF standardizes, streamlines and automates MPF scheme administration, thereby enhancing operational efficiency, reducing administration costs, and providing a hassle-free, all-in-one user experience for scheme members and employers. All trustees will get onboard the eMPF by the end of this year. Scheme members and employers can manage all their MPF accounts digitally anytime and anywhere. In this briefing, the MPFA will share the latest developments and key functions of eMPF.

Join us at the seminar to explore how to leverage the eMPF platform for easier MPF management. The eMPF Outreach Team will also be available to assist participants with registration at designated booth.

Date & Time	Thursday, 11 December 2025 1:00 p.m. – 2:00 p.m.
Venue	HKICPA, 27th Floor, Wu Chung House, 213 Queen's Road East, Wan Chai, Hong Kong
