YOUNG MEMBERS CONFERENCE 2026

The future-ready CPAs:
Leading through digital frontiers and new markets

[Archived session]

New technologies, new assets, new possibilities — the next chapter of accounting is full of opportunity. Held on 12 September, the Young Members Conference 2026 explored how young CPAs can stay ahead in an AI-driven world and seize growth across emerging sectors.

The conference highlighted how young members can harness the opportunities of AI and unlock the value of the intellectual property economy. Through engaging panel discussions and expert insights, the programme inspired young CPAs to lead with confidence in the next era of the profession.

Returning to a physical format this year, the conference provided a valuable platform for young members to connect, exchange ideas, and expand their professional network.

Members interested in viewing the archived session of the conference, please refer to the information below for registration.
