Financial Controllership Programme

Following the successful pilot run in 2016, the Hong Kong Institute of Certified Public Accountants officially launched the new Financial Controllership Programme in 2017. It is a unique, tailor-made, practical training programme providing participants with insights into the work involved as a financial controller who adds value to the employer's business.

All preparatory and contact hours will qualify as verifiable CPD hours for Institute's members.

Programme objective

The objective of the programme is to develop competencies expected of a skilled financial controller, providing participants with:

- The core technical knowledge and skills expected of a financial controller
- Insights into the work involved as a financial controller and how to add value to the business

For whom is the FCP designed?

- Aspiring and recently appointed financial controllers
- Existing financial controllers who wish to refresh their skills
- Members preparing to move from practice into business

Structure and learning outcomes

The FCP combines face-to-face learning, experience sharing and case studies for interactive participation. The FCP has 5 modules constituting a 16-day programme. Classes are run on Saturdays (or Sundays), 9:30 am to 5:30 pm.

Management Competency Development

4 days

The importance of soft skills has always been highlighted as the differentiator for career development for accountants today. Stepping up to financial controller, CFO and managing director does not only require you to be a better accountant, it also requires you to be able to lead, communicate, influence, negotiate and partner with key stakeholders.

This module will challenge you, help you identify your personal strengths and weaknesses and give you practical steps you can take in your present situation to become a better leader and manager. The module will feature best practices, experience sharing, role play and exercises. Sessions will focus on live issues faced by participants.

Accounting for Performance and Decision Making

3 days

This module aims to recognize and develop the role of the financial controller in supporting the strategic decision making process through the provision and impactful communication of relevant information drawing on financial and non-financial decision making techniques, key performance measures and insightful reporting.

Participants will be able to develop skills and a commercial mindset, which are a necessary precondition to preparing for a successful career in business finance.

Strategic Finance

3 days

This module aims to enhance the technical skills and practical knowledge required of a financial controller in strategic finance, including capital planning, bank financing, treasury and risk management, debt capital market and hedging products, fintech, equity capital market and mergers and acquisitions.

The module will focus on applications and case studies, including end to end problem solving from building a framework to evaluating alternatives and implementation issues. The sessions will involve corporate and investment bankers, treasurers and CFOs.

Risk Management and Corporate Governance

4 days

This module explores the practical issues of corporate governance and risk management in a company. Through content and case study, participants will be able to gain the understanding and experience to recognize the problems and difficulties of applying the best practice, and judgments and decisions that company leaders and managers will have to make while facing a variety of situations and contexts.

Participants will also gain the advanced skills and confidence to meet the increasing corporate and risk management demands, thus increasing their overall value to the business.

Business Ethics

2 days

This module will highlight the important role of the financial controller in setting the culture and code of ethics in a business.

Participants will be able to learn about the fundamental concepts and requirements in Hong Kong, mainland China and other major jurisdictions. They will be equipped with practical strategies to eliminate or at least to reduce the business integrity risks that may surface within their business organizations. They will also be empowered with the necessary skills to instill ethical values and practices in their finance team and where possible in the whole organization.

Teaching professionals

Course directors and facilitators are industry experts and experienced professional accountants in business with expertise in different subject areas covered by the programme.

Admission requirements

Individuals who meet the following criteria are eligible for admission to the programme:

1. *HKICPA member, and*
2. *At least 5 years post-CPA qualification work experience.*

Practical experience is highly desirable for participants to benefit fully from the programme. As places are limited, preference will be given to applicants with practical experience in financial controllership.

Award

Participants will be awarded a certificate by the Hong Kong Institute of Certified Public Accountants upon successful completion of the whole programme, achieving at least 80% attendance and having satisfactorily completed programme assignments.

Recognition by CIMA (Chartered Institute of Management Accountants)

CIMA offers additional examination paper exemption to HKICPA members who have successfully completed the FCP. FCP graduates will only need to pass CIMA/CGMA's final Strategic Case Study Exam and meet practical experience requirements to obtain CIMA membership and CGMA designation.

Programme fee

HK\$32,000

Members may also enrol on standalone module(s), however priority will be given to those enrolling on the entire programme.
