Young Members Virtual Conference:

Building an arsenal for young accountants – new trends and skillsets for future-ready CPAs

About the conference

The business environment nowadays comes with its own unique set of challenges. It is becoming increasingly important for future-ready CPAs to showcase additional soft skills apart from the traditional competencies, emphasizing strengths in communication, technology, business intelligence, etc.

What types of skillsets should young CPAs develop to flourish in a world where AI-powered algorithms automate traditional tasks? What are the top skills you have to equip yourself with under the evolving financial markets and the growing emphasis on corporate social responsibility?

The conference will bring a panel of speakers to share their insights on skillsets required for young CPAs under the new market trend covering subjects relating to AI, big data, cryptocurrencies, security token offerings, listed companies, as well as environmental, social and governance reporting.

Join the **Young Members Virtual Conference** to learn more and develop your skillset to enrich your long-term career prospects.
