IT Virtual Conference 2021

Coming out From Virtual Reality to the New Reality -

What technologies and transformation initiatives should organizations consider when moving forward under the "new reality"

[Archived session]

Lives have had to adapt to the disruption of the pandemic, many are calling this the "New Normal".

For professional accountants, this disruption, and the technological tools that have been introduced to adjust to it mean that profession in fact faces a "New Reality". In this technology-driven reality, accountants must acquire new skills succeed by utilizing the tools available to them.

The Institute's Information, Communications and Technology Interest Group organized its annual conference on 23 October, at which renowned speakers from different background shared their insights on how to help businesses and professional seize the opportunities available through technology advancement and achieve success.
