

HKICPA x ACCA joint webinar: Myths about the cross generational workplace debunked 跨世代職場迷思拆解

With the latest wave of Gen Z professionals entering the workplace, we can easily find employees across four generations working in the same organization at once. Myths about generational gaps and age differences can have a profound impact on the effectiveness and harmony of a workplace. Optimizing workplace talent and team productivity therefore requires a clear understanding of generational nuances, and how multi-generational teammates can better interact with each other.

This joint webinar by HKICPA and ACCA aims to provide a platform to discuss various issues in the workplace that members encounter across different stages of their career in relation to these myths. Select real-world workplace scenarios will be discussed in the webinar, where our panellists across generations will be sharing their insights and experience from different perspectives. Through the webinar, we hope to enhance mutual understanding between generations to build a better workplace and create organizations that are sustainable well into the future.
