Young Members Virtual Conference 2023

Navigating the next frontier: Embracing AI and ESG
as young accountants in Hong Kong

About the conference

The global push to integrate sustainability across all aspects of organizations and the increasing need for digital transformation is reshaping the accounting profession. Amid all these changes lie abundant opportunities waiting to be seized.

To assist young professionals in identifying these opportunities, we are thrilled to present this year's conference. Join us as we bring together a distinguished panel of speakers who will share their insights and expertise on the latest industry trends, empowering young CPAs to actively engage in sustainability and ESG initiatives within their companies and organizations.

We will also explore how artificial intelligence continues to shape the landscape of accounting. This panel of speakers will discuss the transformative effects and challenges associated with AI adoption, equipping young accountants with the knowledge and skills required to navigate this evolving terrain.

A recruitment consultant will join us to share valuable tips on career planning, and provide insights into current job market trends.

Join the **Young Members Virtual Conference** to learn more and enrich your long-term career prospects.
