

## E-learning: Audit-cum-accounting training series

### COURSE HIGHLIGHTS:

The impairment of non-financial assets, the assessment of expected credit losses and revenue recognition have long been the subjects of regulatory scrutiny in Hong Kong due to their prevalence and the repeated deficiencies found in audit work in these areas. It is also expected that these areas will continue to be the key focus in the foreseeable future. To enhance audit quality, auditors not only need to obtain a sufficient understanding of the accounting requirements but also need to know how to carry out auditing procedures properly.

This training series will cover these three topics on an integrated audit-cum-accounting basis. The speakers will highlight the key accounting and auditing considerations with illustrative examples and discuss the common pitfalls identified through the recent Accounting and Financial Reporting Council inspections.

Topic and programme code	Date	CPD hour	Speakers
<b>HKFRS 15 Revenue from Contracts with Customers</b>  (ESEMETLS231017L01)	<b>17 October 2023</b>	1.5 CPD hours	<b>Dilys Cheng</b> Partner, PwC  <b>Elsie Yu</b> Senior Manager, PwC
