

E-learning Webinar: Event code: EWEB24022802 Dealing with major cyber incidents - preparation and response

About the topic

Major cyber incidents are all too common nowadays and they can have a very damaging effect on businesses. Such incidents may include malware attacks, phishing attacks, insider threats and distributed denial-of-service attacks, which can undermine the security and trustworthiness of digital resources. Therefore, adequate preparation and planning to address cyber incidents is crucial, including putting in place a comprehensive response programme and knowing how to react should such an attack occur.

In this webinar, the experienced practitioners will discuss, amongst other topics:

- Incident Response Planning: Exploring the process of developing a comprehensive incident response plan, including the identification of roles and responsibilities, escalation procedures, and communication protocols;
- Forensics and Investigation: Exploring the role of digital forensics in cyber incident responses, including evidence collection, analysis, and preservation; and
- Incident Response Procedures: Covering the step-by-step procedures and best practices for responding to different types of cyber incidents, including containment, eradication, recovery and reporting;
- Case sharing.

About the speakers

Eva Kwok, Senior Managing Director and Head of Cybersecurity, Hong Kong, FTI Consulting

Ms. Kwok is a cybersecurity expert with more than 23 years of experience in the information system industry. She advises clients on cybersecurity strategy, cloud governance and security, identity and access management, data governance, privacy and protection, and security analytics.

Ms. Kwok leads the cybersecurity practice in Hong Kong and continues the expansion of the firm's cybersecurity capabilities in the Asia-Pacific region. She specializes in cybersecurity readiness, specifically implementation services, to help clients bolster their cybersecurity protections ahead of incidents.

Prior to joining FTI Consulting, Ms. Kwok served as the Cyber Lead of Deloitte China – Hong Kong, focused on cybersecurity and technology risk consulting. For more than 16 years, she worked as a partner of the Risk Advisory practice in the Deloitte Hong Kong office. There, Ms. Kwok led and supervised cyber projects for clients across the financial services and public sector.

Ms. Kwok has significant experience with Hong Kong Monetary Authority regulatory-related assessments, including the Cyber Resiliency Assessment Framework (CRAF), TME-1 assessments, customer data protection assessments, TMG-1, and SWIFT assessments.

Neo Lam, Partner, Deloitte Advisory (Hong Kong) Limited

CISSP, CCISO, GCFE, GNFA, CEH, X-PERT, Meiya Certified Examiner, Certified ISO 27001 Lead Implementer

Neo is a partner in the Deloitte Risk Advisory Cyber practice, focused on Cyber Operate including Cyber Incident Response. He has more than 13 years of experience in handling digital investigations, incident management and incidents covering major cross-region cyber security / digital fraud and money laundering cases.

He served as the APAC Head of Incident Response and Digital Forensic for Kroll leading a team of seasoned DFIR engagement managers from Hong Kong, Japan, Singapore and Australia, handling major cyber incidents, leveraging global resources and using leading-edge technology and industry-standard forensic tools and procedures, to identify the root cause and assess the impacts on business.

Prior to that, he served as the Head of Digital Forensics Investigations for the Hong Kong Police Force, leading multiple teams in providing digital forensic and incident response for various industries, such as government, financial institutions and insurance on enterprise scale.
