

## ESG webinar: New ISSB Sustainability Standard Implementation

Programme Code: EWEB24041101

Businesses and organizations are integrating sustainability into corporate strategy more and more. Plenty of corporates find that corporate or business development strategy and sustainability considerations are inseparable. It is key for corporates to start planning and strategizing, learn by doing and prioritize resources. While regulators are evaluating how best to integrate the proposed requirements into the existing reporting frameworks, corporates are encouraged to voice out their challenges and contribute to the development of possible solutions and ideas at the same time.

This webinar will provide an in-depth exploration of two sustainability-related reporting standards, namely IFRS S1 and IFRS S2, to enhance understanding and promote effective implementation of these standards among companies and investors.
